

Merstham
Primary School

Dear Parents and Carers,

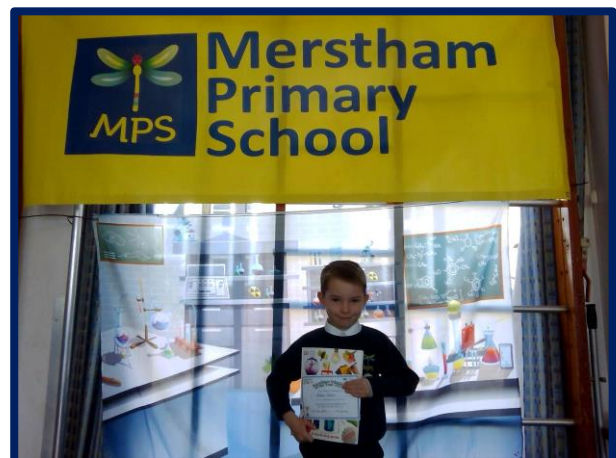

Last week was Science Week and we had a wonderful time completing our fantastic science activities. As many of you know Wednesday was our Merstham Primary School Science Fair 2020.

This was our third year of running the science fair and as usual the children excelled themselves in thinking of exciting scientific questions to investigate.

Thank you all for your support with these projects. It was wonderful to see how many of you could join us to have a look round and talk to the children after school. The children put a lot of thought and effort into their projects and were thrilled to be able to share it with so many adults and children.

The quality of entries was so good this year that the judges job was harder than ever. We eventually narrowed it down to 15 winners with 4 overall winners.

The Merstham Scientist of the Year 2020 for KS1 is Rohan Fisher.

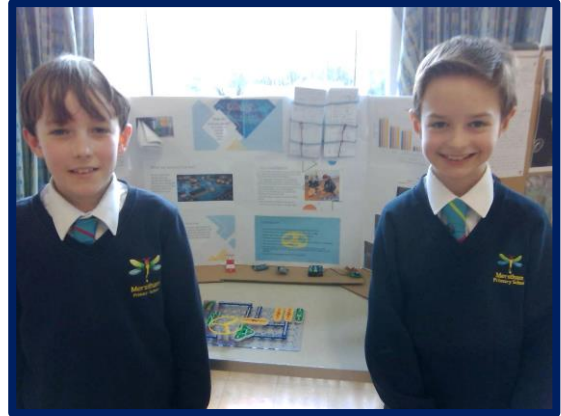

The Merstham Scientist of the Year 2020 for Lower KS2 is James Reeves.

Merstham
Primary School

The Merstham Scientists of the Year 2020 for Upper KS2 are Evan Hellyer and Oscar Smith.

Our other winners are: Bobby Jervis and Milo Strong, Chloe Everley, Jessica Moore, Amber Tree, Tyler Royal, Maggie Hendry Smith, Imogen Lucas, Gregory Fairs, Daniel Fairs and Amelia Fish.

These 15 children will be our Merstham Science Ambassadors when we take them to the GLF Grand Final at the Royal Holloway University. This event is currently being rescheduled and a letter will come out when a new date is confirmed.

Thank you once again to all the children, parents, staff and governors who made this such a great event. Thank you for your support and wonderful feedback.
